## A Resolution of Appreciation for Craig Kapner

**Whereas,** The District is honored to recognize and appreciate Mr. Craig Kapner's 24 years of service to the Santa Ynez Community Services District.

**Whereas,** Craig began his career with the Santa Ynez Community Services District on May 2, 2000. Craig described himself as a "lump of clay" who started working for a district whose only tools were a flashlight and a pick, ready to be molded into what they are today.

**Whereas,** Craig had many fond memories of the District, but none greater than being a part of the installation of the Wastewater Treatment Plant at the Chumash Casino – adding to his rich life experiences that he never imagined transforming into his career.

**Whereas,** Craig earned his California Water Environment Association or CWEA II Certificate on January 26, 2008.

**Whereas,** Craig is proud of his sanitary sewer overflow spill history, with only three spills from the District's collection system totaling about 175 gallons over the last 21 years.

**Whereas,** Craig's unwavering commitment to our community was evident in his readiness to answer questions about the collections system or his willingness to lend the Chamber of Commerce, staff, or anyone else a helping hand whenever needed.

**Whereas,** Craig's active voice in the Santa Ynez Valley community often involved recalling whimsical yarns from his youth, regaling in the restoration of a vintage automobile, or telling tall tales of coastal surfing adventures that have left a lasting impression on us all.

**Therefore,** with utmost respect, and now as a matter of public record, the Santa Ynez Community Services District resolves to recognize the Board's appreciation for Mr. Craig Kapner's services.

**This resolution was passed and Adopted on June 26, 2024.**
